## About me

I'm a dedicated fullstack web developer, Pen tester, Ethical Hacker with a passion for AWS Cloud Security Engineering. I love using my skills to generate reports from scanning and testing web application, pen testing through SQL injection, and securing the cloud infrastructure. Also building lucritives websites and applications.

## Experience

### Cloud Security Engineer

January 2025

Afriq Travels

A passionate AWS cloud security Engineer, with strong background in Cloud Security, Database Designing, Web application development and securing AWS cloud infrastructure.

### Ethical Hacker & Pen Tester

2021 - 2024

Afriq Travels

I honed my skills as an Ethical Hacker and Web Administrator at Afriq Travels from 2021 to and 2024. In this role, I successfully ensured the security and integrity of the company's web presence, leveraging my expertise to identify vulnerabilities and implement robust solutions to safeguard against potential threats.

### Web Developer & Administrator

Jan 2017 - Dec 2019

Better Civic International Foundation

As a skilled Web Developer and Web Administrator at Better Civic International Foundation from 2019 to 2021, I played a key role in designing, developing, and maintaining the organization's web presence
